

3M™ Versaflo™ M-300 Series Helmets

Care and Maintenance

To maintain protection levels, optimise the effective lifetime of the system and avoid the additional cost of replacement, it is extremely important to carry out regular checks and maintenance on Powered and Supplied Air Respirators.

Before Use

- Inspect for damage and replace if necessary:
 - Face seal – ensure it is inserted properly and free from splits and tears.
 - Visor, its surround and gasket.
 - Forehead seal.
 - Head harness.
 - Comfort pad/s
- Replace Peel Off visor covers (if used).

Monthly

- Carry out all the “Before Use” inspections thoroughly and create a record of this monthly check.

After Use

- Clean with cloth dampened with a mild solution of water and liquid household soap
- Disinfect surfaces with 3M™ 105 Wipes
- Store in a dry, clean area / locker away from direct sunlight, high temperatures and solvents

Ordering Consumables, Repair Parts and Accessories

To request a quote or place an order for these items, please contact your 3M Approved Distributor.

Further Information and Advice

If you require additional guidance on the Care and Maintenance of your 3M Powered and Supplied Air Equipment, please contact the Helpline or your local 3M representative.
