

4560 siabite

The optimal ceramic fibre disc for general fabrication applications

The optimal ceramic fibre disc for general fabrication applications

4560 siabite's coarser grits have been designed for high stock removal on mild steel. The disc also delivers consistent surface quality in finer grits on stainless steel. All this leads to faster completion of your grinding applications.

- ▶ High-performance product with ceramic aluminium oxide
- ▶ Active additives with a cooling effect greatly reduce discolouration
- ▶ Firm fibre backing

Product profile

Grit type:	Ceramic aluminium oxide
Grit range:	36; 50; 60; 80; 100; 120
Backing:	Fibre
Coating:	Closed
Bonding:	Resin over resin
Special coating:	Cooling additive

Application

Application

- Weld preparation
- Removing discolouration
- Sanding down
- Surface treatment
- Blending
- Deburring

Materials

Steel; Stainless steel (inox); Metallic coatings; Other hard-to-grind metals

Diameter

115 mm, 125 mm, 180 mm
